

2019 1 YEAR INTERNATIONAL POSTGRADUATE PROGRAM

9 training meetings of two days each: from February to November

Scientific Director: Professor Massimo de Sanctis MD, DDS, MSc

RECONSTRUCTIVE SURGERY OF PERIODONTAL AND PERI-IMPLANT TISSUES

Speakers: Sofia Aroca/Francesca Cattoni/Raffaele Cavalcanti/Marco Clementini/Francesco de Sanctis/Nicola Discepoli/Davide Guglielmi
Guerino Paolantoni/Mario Rocuzzo/Massimo Simion/Cristiano Tomasi/Fabio Vignoletti/Giovanni Zucchelli

Milano (I) – San Raffaele University – Dental School – Department of Periodontology

Presentation

The Postgraduate Course on Reconstructive Surgery around Teeth and Implants is offered by the University Vita e Salute-San Raffaele in Milan.

Professor Massimo de Sanctis, Chairman of the Department of Periodontology, will be the scientific responsible of the Course as well as the main teacher.

The objective of the course is to provide the participants with **the most updated information on reconstructive surgical techniques both for soft and hard tissues**.

All the clinical sessions will be conducted by the best Experts on the specific technique.

Every session of the Course will include a Live Surgery session and will be supported by videos of every single technique as well as hands-on Seminars in order to replicate the surgeries discussed on animal models. During the Course, articles and abstracts of the most recent literature will be delivered to have a more objective discussion maintaining the entire Course based on scientific evidence.

I am sure that this Course will be an unique occasion to refine the surgical skill of participants as well as their capacity of treatment planning and choosing the better surgery in a given case.

In other words, for anybody interested in modern Periodontology, Aesthetics and Implantology **this is the Course you cannot miss!**

Massimo de Sanctis

FULL PROFESSOR OF PERIODONTOLOGY
VITA-SALUTE SAN RAFFAELE UNIVERSITY MILAN

DIRECTOR, DEPARTMENT OF PERIODONTOLOGY, ORAL HYGIENE, AND PREVENTION
SAN RAFFAELE HOSPITAL MILAN

Preliminary Program

February 8/9

Periodontal and peri-implant tissues

Nicola Discepoli

Etiology and Pathogenesis of periodontal and peri-implant diseases

Cristiano Tomasi

Periodontal treatment planning.
When to choose implants

Guerino Paolantoni

Hands-on section

Treatment planning. Practical exercises

Marco Clementini

March 15/16

Surgical techniques for the treatment of single recessions

Diagnosis, prognosis of root recessions

Francesco de Sanctis

Coronally advanced flap

Laterally and coronally advanced flap

Bilaminar technique

Two phases surgery

Harvesting a connective tissue graft

Connective tissue substitutes

Live Surgery

Massimo de Sanctis

Hands-on section

Practical exercises on animal mandibles

Marco Clementini, Francesco de Sanctis

April 12/13

Surgical techniques for the treatment of multiple recessions

Multiple coronal advanced flap (MCAF)

Multiple coronal bilaminar flap

Massimo de Sanctis

Live Surgery

Massimo de Sanctis

Hands-on section

Surgical exercise on animal mandible

Marco Clementini, Francesco de Sanctis

May 24/25

Surgical techniques for the treatment of multiple recessions

The Modified coronally advanced tunnel (MCAT)

The use of connective tissue graft in tunnel technique

The use of connective substitutes in tunnel techniques

Live Surgery

Sofia Aroca

Hands-on section

Practical exercise on animal mandibles

Marco Clementini

June 21-22

Relationship between periodontal plastic surgery and restorative/prosthetic

The reconstruction of CEJ: A fundamental in mucogingival surgery

Massimo de Sanctis, Davide Guglielmi

The biologic width and crown lengthening techniques: Myth or reality?

Massimo de Sanctis, Davide Guglielmi

Crown lengthening in esthetic areas

Marco Clementini

The perio-prosthetic relationship in esthetic area

Francesca Cattoni

Live Surgery

Marco Clementini

Davide Guglielmi

July 19/20

Soft tissue management around implants

Mucogingival techniques before
implant placement

Surgical techniques during
implant placement

Surgical techniques after
implant placement

Sofia Aroca, Mario Rocuzzo

Live Surgery

Sofia Aroca

Hands-on section

Practical exercises on animal model

Marco Clementini, Francesco de Sanctis

September 27/28

The reconstruction of deep periodontal tissues

Diagnosis of intrabony defects

Marco Clementini

Healing potential of bone defects

GTR Biologic principles and clinical applications

Francesco de Sanctis

The use of bone substitutes, membranes and enamel proteins

Massimo de Sanctis

Mucogingival surgery and bone reconstruction:

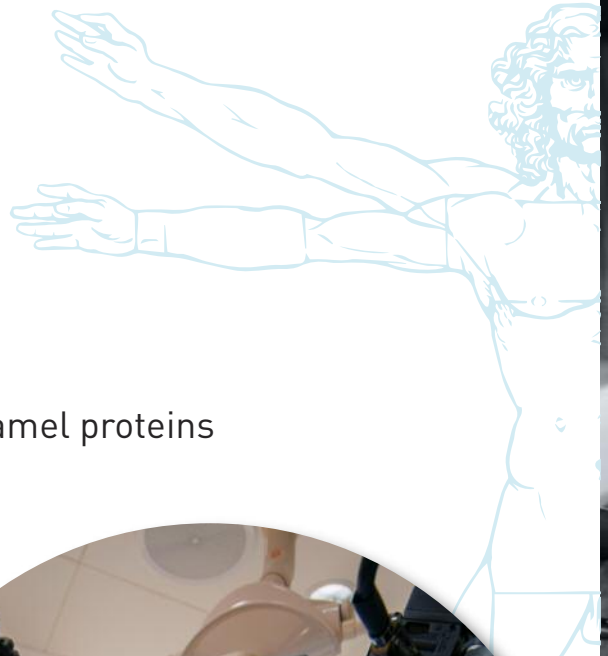

Fiber barrier techniques

Giovanni Zucchelli

Hands-on section

Surgical exercises on animal model

Marco Clementini, Francesco de Sanctis

October 18/19

**Post extractive alveolus:
Spontaneous healing, alveolar preservation, alveolar reconstruction**

Immediate implant with and without connective tissue graft

Fabio Vignoletti

Perimplant reconstructive surgery

Raffaele Cavalcanti

Live Surgery

Fabio Vignoletti

Bone reconstruction in horizontal
and vertical defects

Massimo Simion

Hands-on section

Practical exercise on animal models

Marco Clementini

November 15/16

Treatment strategies to prevent perimplantitis

What is perimplantitis?
Which are the causes?
Can we predictably treat it?
Surgical technique to decontaminate
implants and to reconstruct the
lost bone around an implant

Mario Rocuzzo

Live Surgery

Mario Rocuzzo

GENERAL INFORMATION

Venue

Università Vita - Salute San Raffaele
Dental Clinic
Via Olgettina 48 - DIMER
I - 20132 Milano

Language

The official language of the Course is **English**.

Attendance

Attendance to the Course is open to Graduate Dentists.

The Course will take place over nine sessions, each lasting two days.

The Course has a numerus clausus.

Applications to participate will be accepted in chronological order until all available places have been taken.

After completing the course and passing the final examination, participants will be awarded the **Diploma in Reconstructive Surgery of Periodontal and Peri-implant Tissues** from the Postgraduate School of San Raffaele Dental School - Università Vita-Salute San Raffaele, Milan.

Enrollment and payment methods are shown on the registration form.

The participation fee will not be reimbursed if attendees cancel after enrollment or during the Course.

Meeting dates may have to be brought forward or postponed for reasons beyond the organisers' control.

The Secretariat will make sure attendees are informed promptly if this happens and they will not be reimbursed.

Registration Fee (VAT 22% included)

Graduate Dentists € 7.500

Registration includes:

- participation in the scientific sessions,
- coffee-breaks,
- course materials and bag,
- attendance certificate.

On-line registration at **www.mjeventi.com**
starting June the 8th 2018

Hotel Accommodation

Hotel Rafael, located near the San Raffaele University, reserves the Participants in the Course special accommodation rates.

Reservations can be made either by telephone or email; in both cases, please refer to the "San Raffaele Post-Graduate Course 2019", in order to facilitate the reservation itself and take advantage of the reserved rate:

Phone +39 02 217651

Email: **frontoffice@rafaelhotel.it**
